Debris removal resumed on Monday, June 21, 2010, after a 10-day lay off to allow citizens more time to move their debris to the right-of-way. Citizens are encouraged to have their debris ready for pick up as soon as possible. The final pass in all areas will be made during the week of Monday, July 5<sup>th</sup>. **The last day debris will be removed from the right-of-way is Friday, July 9.** The City of Norman would like to dispose of all debris as soon as possible. Citizens are reminded to:

- Separate vegetative debris from construction and demolition debris;
- Cut all debris in lengths of less than 22 feet so it will fit into the contractor's trucks;
- Not place debris in the right of way so that it causes a sight obstruction to vehicular traffic, particularly near street or driveway intersections;
- Not place debris near fire hydrants, mail boxes, water meters or anything that can be damaged by the contractor's equipment;
- Remove parked vehicles or other obstructions from the public street when the debris removal contractor is working.

To report private property damage incurred as a result of this debris removal operation, please call the Beck Disaster Recovery hotline at 1-800-413-2325.

Please check the City of Norman website at **[www.normanok.gov](http://www.normanok.gov)** for additional information and updates on the debris removal process.

For more information, please call the City of Norman's Action Center at **366-5396**.
